

“Pow Wow Wild Berry” Coneflower

Description: Vivid magenta petals surrounding central cone

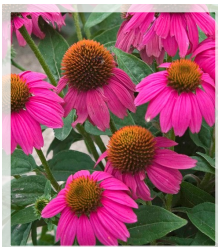

Height: 2-3 feet

Blooms: spring to summer

Sun: full sun to part shade

Soil: dry to moist

Wildlife Value: birds, butterflies, pollinating insects

Fall Phlox

Description: Attractive pale pink to lilac flower clusters

Height: 2-4 feet

Blooms: summer

Sun: full sun

Soil: moist

Wildlife Value: butterflies

New England Aster

Description: Striking composite of purple petals and yellow center

Height: 3-6 feet

Blooms: late summer to fall

Sun: full sun to part shade

Soil: moist

Wildlife Value: butterflies

“Harlequin” Blue Flag Iris

Description: Vivid indigo flower; good for rain gardens and wet edges

Height: 1-3 feet

Blooms: early to mid summer

Sun: full sun to part shade

Soil: moist to wet

Wildlife Value: birds, hummingbirds

Shrub: Shadblow Serviceberry

Description: Multi-season interest: fragrant white flowers in spring give way to crimson fruit and enduring rusty red-orange fall foliage. Low maintenance. Use as a screen or garden focal point.

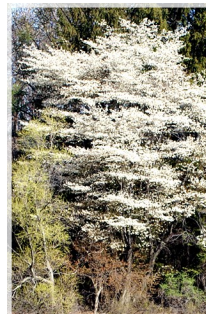

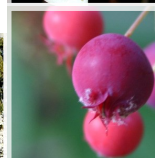

Height: 25-30 ft., 15-20 ft. spread

Blooms: spring

Sun: full sun to part shade

Soil: moist

Wildlife Value: birds

Shrub: “Tiny Wine” Ninebark

Description: Dwarf shrub with bronze to maroon leaves, reddish-brown peeling bark, and bluish-pink flowers. Bears reddish fruit in fall. Use as an attractive hedge or garden backdrop. Resistant to insects, disease and drought.

Height: 3-4 ft, similar spread

Blooms: early summer

Sun: full sun to part shade

Soil: dry to moist

Wildlife Value: birds, butterflies
